**ADMINISTRATIVE LAW JUDGE'S RULING GRANTING THE MOTION
OF SOUTHERN CALIFORNIA EDISON COMPANY
FOR A PROTECTIVE ORDER**

On March 22, 2002, Southern California Edison Company (SCE) filed a motion requesting an Administrative Law Judge (ALJ) Ruling preserving the confidentiality of certain information contained in the Confidential Workpapers in Workpaper Volume 17, Chapter V of the above referenced Application. SCE states that the Confidential Workpapers contain proprietary operating cost and dispatch information concerning SCE's lease and operation of the Riverside Canal Generating Station during the 2001 ATCP review period. SCE requests an order under California Public Utilities Code Section 538 and General Order 66-C to preserve the confidentiality of the Confidential Workpapers and documents related thereto, including hearing transcripts, through the course of these proceedings and thereafter.

This ruling grants SCE's motion in part. This Commission has already held that proprietary business information should be held confidential in circumstances where public disclosure of such information would subject

regulated utilities to an unfair business disadvantage, or would confer an unfair competitive advantage on other entities. SCE asserts that public disclosure of the information in the Confidential Workpapers could place SCE at a disadvantage in negotiating any future lease or conducting generating and dispatch operations related to the Riverside Canal Generating Station, or with regard to any similar lease with another business entity.

Accordingly, **IT IS RULED** as follows:

1. The Confidential Workpapers shall be sealed and protected from public disclosure by the Commission's Docket Office, File Room, and all Commission employees and agents who may receive a copy of the Confidential Material and its attachments in the course of their duties.

2. SCE shall be excused from the requirement of providing a copy of the Confidential Material and its attachments to interested parties (other than employees and agents of the Commission) until such parties sign a binding nondisclosure agreement.

3. Whether hearings with respect to the Confidential Workpapers shall be closed to the public, and transcripts sealed, shall be determined when the issue arises.

4. This protective order shall expire two years from this date, unless further extended.

5. This ruling corrects the ruling issued March 27, 2002.

Dated April 3, 2002, at San Francisco, California.
